14 April 1999

INTELLIGENCE REPORT
No. 7

To: PrK /Priština Corps/ Command
(Report Chief for Intelligence Affairs)

- We have gathered the following information since the previous intelligence report:
 - through the work of intelligence organs.
 - In the Ljubižda Has village sector a group of armed men (10-15) was observed in the village, holding locals – women, children and elderly – as hostages. On 13 April 1999 a sweep of the terrain was conducted and about 100 locals were found in the village. According to a report there are locals from Mala Kruša in the Velika Kruša sector. People in black uniforms were observed on the hill above the populated area. Those people are probably accommodated in /?Pirane/ - Velika Kruša.
 - from 55th GB /Border Battalion/ Command
- The /?Bardhoc/ border post opposite our *Stojanović* border post has been occupied by five or six persons. The Albanian flag was hoisted on the flagpole. We cannot state with any certainty whether the persons are in KLA uniform or whether they are members of the armed forces of Albania.
- According to a statement by a border guard the second line of bunkers in the territory of the Republic of Albania has been occupied but it has not been observed whether any equipment has been brought in: NV /communications chief/ at the border.
- The above demonstrates that small groups that open fire on the security organs (MUP /Ministry of the Interior/ and VJ /Yugoslav Army/ are appearing in certain places (villages) (Pirane, Velika Kruša, the Suva Reka sector).
- We will continue to work on gathering data and you will be promptly informed /?of changes/.
