Submission of information: -

It is the fifth day that the Chetniks are attacking Žepa. They tried several times to launch infantry attacks from the direction of Laze and Borika. The attacks have been repulsed successfully. 11 civilians have been wounded by mortar shelling. Among them two children. Over 30~~0~~⁰⁰ houses have been destroyed in the villages on the outskirts Purići, Čavčići, Pripčak and Slap. These villages have been evacuated. If this situation continues, we have the approval of the commander of the Ukrainian unit to take back from them the weapons that we surrendered. Since we are a DM /demilitarized zone/, we ask for your views on this issue.
