Serbian Territorial Defence of the Foča area is still making every effort in order to clean up the area from armed groups of SDA paramilitary formations. So yesterday, in a place Kovačevići in Bukovica, 80 SDA combatants, who crossed over to the territory of Pljevlja Municipality and registered as refugees while they were in full battle kit, were disarmed.

By the way, Foča Serbian Territorial Defence has liberated the area of Ustikolina.

Situation in the liberated areas is stabilising because of the rule of law and because the institutions of civilian authority have control over the overall situation.
